

High-Speed Counter's Maximum Counting Speed Reference Table (FP-XH common-type control unit)

The maximum counting speed of the high-speed counter varies depending on the number of channels used and the pulse output function. When using the counter, use the following table as a guideline.

												High-speed counter's maximum counting speed (frequency, kHz)											
												Combination with pulse output function											
Combination with high-speed counter								No pulse output				Pulse output 1CH				Pulse output 2CH(1-axis interpolation)				Pulse output 3CH
