FP Connect Silent Installation

for the use of FP Connect in custom projects

The installer contains the following features:

1. FPConnect OCX, Visual Studio 2015 C++ redistributable files, PxMEWNET manager
2. USB driver files: included are USB driver for GT panel, the driver for FP-X/FP-XH, and the PIDSX PLCs USB driver for e.g. FP0R, FP7,
   Note: even in silent mode, the USB driver installation (GT Panel driver and the PIDSX PLCs driver) will cause that Windows displays a warning message because these drivers are not signed by Windows Hardware Quality Labs.
3. Example files: example files are projects for Visual Studio (VBA, C++, C#), Excel and Power Point

##
Command line parameters for silent installation
#

Installs the features 1. 2. 3.
